About Me

I am a student of the Bachelor's Degree in Information Technology at UFRN, with plans to pursue a second cycle in Computer Science. I am currently enrolled in the PES (Programa de Estudos Secundários, similar to a "minor") in Artificial Intelligence, deepening my knowledge in AI and software development. I am passionate about full-stack development and AI. I hold a Technical Degree in Informatics from IFRN and have academic experience in back-end, front-end, and web development. I am seeking opportunities to apply and improve my technical and professional skills, contributing to innovative and challenging projects.
